

C4: Checking cart content limits

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type			
None			

Preconditions

1.The user is on the home page. Products can be added to the shopping cart. 2.The user is not logged in.

Steps

1	The user adds various products to the shopping cart. After adding 15 products to the cart, the user tries to add another one.	After adding 15 different products, the next one does not add to the cart.
2	The user increases the number of the selected product in the shopping cart, so that its value exceeds 40000 PLN.	When the cart value reaches 40000 PLN, a "toast message" appears on the screen, which cannot be closed with the "x" button. The toast message automatically disappears after 3 seconds. It is not possible to increase the number of any product of the shopping cart.
