

C7: Sharing a shopping cart on Messenger

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type			
None			

Preconditions

- 1.The user is on the view of the shopping cart with at least one product in it. At the bottom of the list of products in the cart is the "Share your cart" button.
- 2.The user is not logged in.

Steps

1	The user clicks the "Share your shopping cart" button	The shopping cart sharing screen appears. You can choose between two sharing modes: "Public offering" and "Private offering".
2	The user clicks the "Public Offering" option.	A link to the shared shopping cart is generated. The user sees 3 options: -> copy the link to the clipboard -> send the link by e-mail -> share the link via Messenger
3	The user clicks the option to share the link via Messenger.	The user is redirected to the Messenger app and the option to select a person from the contact list appears (Messenger opens in a new tab).
